

# Forestville Academy

## Community Service Projects

### Grades 7 & 8

As a requirement of promotion each student in grades 7 & 8 must complete a total of eight (8) hours of Community Service each year (an average of two (2) hours each grading quarter.) Community Service must be **completed** and **documented** by the **Friday before the End of Year Field Trip each year**. Students who have not completed this requirement and who decline alternative Community Service **will** forfeit end-of-year recreational field trips as well as graduation and promotion privileges.

Please use these Record Sheets to document any Community Service you complete during the year. Once students have completed the work:

- 1) Fill out Service information completely
- 2) Receive a Supervisor's validation signature
- 3) Student must also print & sign
- 4) Return completed form(s) to Academy Office

We urge you to complete your Community Service as soon in the school year as possible.

There is a listing of volunteer and non-profit agencies on the back of this document that you might consider as options. (This is only a partial list of suggestions) Community Service is a means of sharing and giving, so be resourceful. Check with a school administrator or the school counselor if you have a creative idea to help others. All community groups really appreciate the involvement of caring and concerned volunteers. Volunteer work completed on campus during Campus Beautification & Improvement Days also fulfills Community Service hours.
